

# Impacts of Climate Change on Crime and Justice:

## 1C - Thermal Discomfort in Courtrooms

<https://github.com/mo-gregmunday/climate-data-challenge-22>

Julie Clouder (Ministry of Justice)

Greg Munday (Met Office)

Will Roberts (University of Northumbria)

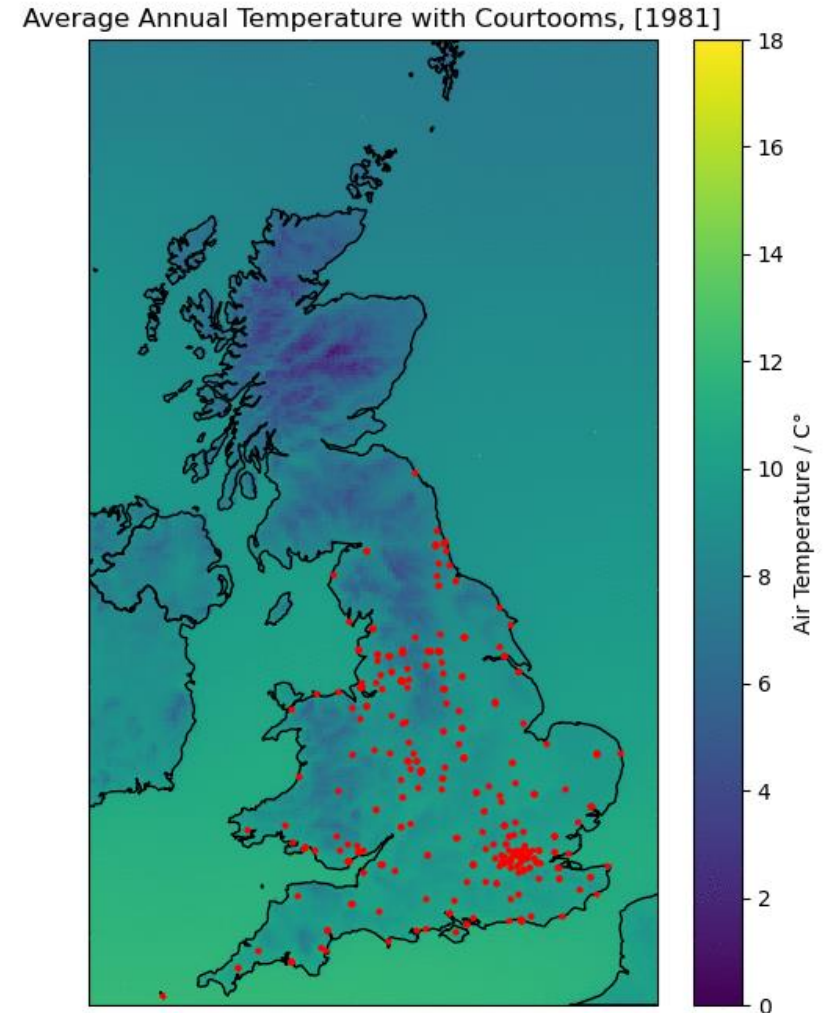

Susan Sun (Met Office)

Output:

A proposal for a research study to quantify potential future impacts of climate change on effectiveness of the judicial process.

This includes specifications for new data that need to be collected, a demonstration of how to use UKCP climate projections for the purposes of this study, proposed analysis methodology, and possible implications of any findings.
